

Jonathan Christian Souw

BINUS COMPUTER SCIENCE UNDERGRADUATE

📍 Tangerang, Banten | 🌐 cenaporto.vercel.app | 📞 +6287775151952 | ✉ jonathan.souw@binus.ac.id

SUMMARY

As a Computer Science student specializing in Intelligent Systems, I'm developing intelligent solutions using Machine Learning, Deep Learning, Natural Language Processing, and Computer Vision.

EDUCATION

2023 - Present Computer Science Student at **BINUS University**
Streaming : Intelligent System

2020 - 2023 Senior High School Student at **Senior High School 1 Tolitoli**
Major : Mathematics and Natural Science

PROJECTS

Tense Sense

An NLP and Machine Learning project that classifies English sentences into past, present, or future tenses by analyzing verb forms and grammatical patterns through tokenization and linguistic processing.

Football Match Predictor

A Machine Learning project using a Random Forest model to predict football match outcomes by analyzing historical data such as goals, possession, shots, and team statistics to derive performance insights.

Workly

A job search platform that enables users to explore available job opportunities, submit applications, and allows employers to post and manage job listings through an organized and user-friendly system.

EXPERIENCE

Staff of Dhamma and Social Division *Jan 2025 – Present*

Keluarga Mahasiswa Buddhis Dhammavaddhana

Supported organizational programs and developed the Buddhist student community.

Member of One Million Help 2024 Event Division *Mar 2024 – Jun 2024*

Keluarga Mahasiswa Buddhis Dhammavaddhana

Managed volunteers and taught hydroponic media at Tegal Angus elementary school.

Activist, Dhamma and Social Division *Jan 2024 – Jan 2025*

Keluarga Mahasiswa Buddhis Dhammavaddhana

Contributed to organizational programs and community service.

SKILLS

Hard Skills Python, Java, C, SQL, Machine Learning, Deep Learning, Natural Language Processing, Computer Vision, Artificial Intelligence, PyTorch, TensorFlow, Keras, Scikit-Learn, Data Preprocessing, Modeling, Feature Engineering, Model Evaluation

Soft Skills Problem Solving, Analytical Thinking, Communication, Teamwork, Leadership, Adaptability, Time Management, Project Management, Collaboration
